

Ari Bradley
Murrah High School Student Representative

- **What is the ACT?**
- **How Does It Benefit Students?**

My proposal today is sparked by the College and Career Readiness Curriculum

Policy Examined: Policy IGB

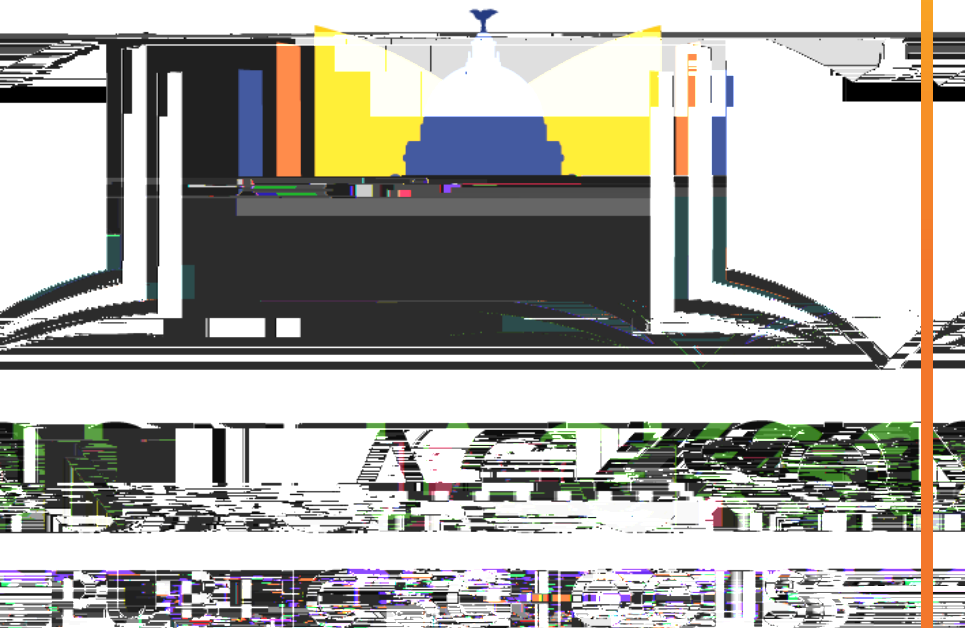

I S I I I I

College and Career Education:

Mastery Prep courses are efficient, and so standards should be **more heavily implemented** considering the impact ACT scores and Dual Credit hours have on aid and scholarships

Proposal: JPS should implement an earlier and consistent use of Mastery Prep enrichment in course offerings starting in 9th grade along with an annual ACT Test to track student progress.

Initial Hypothesis: More focused and early implementation of Mastery Prep in the 9th-grade will increase and benefit a student's knowledge and skills needed for success in college, career, and to compete in a global economy.

Statistics:

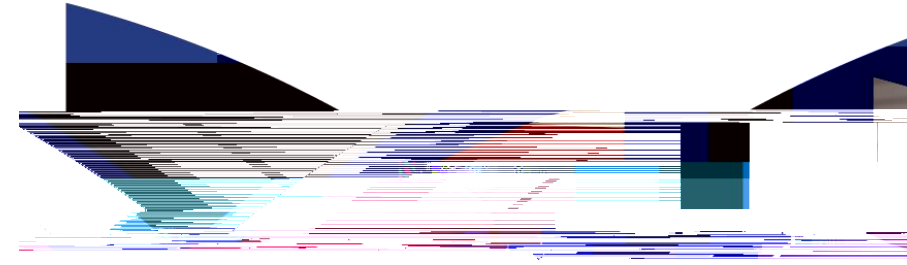

JPS' Average ACT (provided by Ms. Jana Williams, JPS CCR Manager)
Compare to State and surrounding districts

18.1-17.9

15.9

20.7-20.6

The early and consistent implementation of the College and Career Readiness components and standards in the 9th grade

- Equity
- Excellence
- Growth Mindset
- Relationships
- Relevance
- Positive and Respective culture
